

Take a walk in my country

Take a step away from the daily grind
Come and get a little sunshine
If you want to feel wild and free
Take a walk in my country

Put a little time on an endless beach
Only footprints behind you
Cast your troubles in the deep blue sea
Take a walk in my country

Listen to the wind on the spinifex plain
Gentle voices will guide you
Get a little red dirt all over your feet
Take a walk in my country

Come away come away on eagles wings
Come away come away where the dreamtime sings
Brother and sister you and me
Oh take a walk in my country
